Biyografi

Dr. Deniz Alis graduated from Cerrahpasa Medical Faculty in 2013. He finished his training in 2018 with a doctor's degree. He completed his government service obligation in Mehmet Akif Ersoy Cardiovascular research and training hospital. Dr. Alis primarily engaged in high-end cardiovascular radiology applications such as cardiac magnetic resonance imaging and coronary computed tomography in clinical and academic environments. He started to work at the Mehmet Ali Aydınlar Acibadem University, Maslak Acibadem Hospital, in April 2020 as an assistant professor in radiology. He became an associate professor of radiology in 2021. His primary focus in the Acibadem Healthcare group was contributing to the group's already high healthcare, providing standards, particularly with his expertise in cardiovascular imaging and artificial intelligence. Dr. Alis is the co-author of more than 50 papers published in international journals, including several articles on machine learning for medical imaging. In addition, Dr. Alis is the co-founder and CEO of Hevi AI, a start-up company producing deep learning-based software solutions for medical imaging.
